BRASSERIE DES VOIRONS

Lucinges, Savoie

The Brasserie des Voirons is run by Christophe Grellier in the Haute-Savoie village of Lucinges, which sits some seven hundred metres above sea level in the shadow of Mont Blanc.

Christophe worked as a chef in haute cuisine temples such as Tour d'Argent and Marco Pierre White before settling in Lucinges in 2003, opening a small auberge serving food from the region alongside his favourite wines. He ran it for a decade before closing its doors in 2013 to take over the village's tiny brewery.

The beers are brewed with the pristine alpine water of Voirons, which draws from the same source as Evian. The quality of the water lends the beers a luminous, nourishing character which provides the perfect foundation for the creativity that ensues. All other ingredients are of the best quality and are sourced with the utmost respect for nature, and the brasserie has been certified as organic by Nature et Progrès.

Some are aged on the lees of the wines of some of France's most decorated vigneron, often in the same barrels in which the wine was raised, others are infused with citrus, berries, wildflowers or foraged herbs in sandstone amphorae.

Bottled unpasteurised and unfiltered, they evolve beautifully over time and are amongst the most delicious and compelling beers we have tried.

BRASSERIE DES VOIRONS

Lucinges, Savoie

Cette Blonde est une bière de Macération de Citrons, Oranges et Clémentines Bio d'Andalousie entiers sans traitement après récolte. Elle est élaborée en Jarre en grès de 1000 Litres puis élevée en barriques. Elle est non filtrée, non pasteurisée et sans entrant chimique, c'est une bière à boire à table... ou pas ! Mais sans rondelle de citron.

Ingrédients: Eau de Lucinges, Malt d'orge, citrons, oranges, clémentines, houblon, levure, sucre (uniquement pour la prise de mousse)

A consommer de préférence avant fin 2030

BIÈRE VIVANTE D'AGRUMES

2023

A blonde infused with lemons, oranges and mandarins from an organic farm in Andalusia. The infusion takes place in sandstone amphorae, before the beer is moved to old barrels for a short élevage. Light, bright and golden in colour, it is featherweight and fine, with pith, pulp and zest offering refreshment in spades.
